

Workshop: WS 01 PIONEERING LOCAL CLIMATE ACTION

Cluster: Agents of change

What have we learned?

- ^{key actor /} agents of change could be everybody (to push climate action)
- no support / resources
- broad competences
- ambitious long-term targets

How can we contribute to local climate action?

- necessary to focus on municipalities
↳ targets not only on national level
also on local level must be visible

Next Steps?

- twinning climate cities program / teaming with the pioneers
- global program of support for local climate action
(includes resources, finance, capacity, technology, know-how)
- make successful examples visible
