

Workshop: **CLIMATE-FRIENDLY MOBILITY IN RURAL AREAS**
N°9
Cluster:
INFRASTRUCTURE

public health
local economy
fun of moving
affordable for households
clean air

What have we learned?

Climate-friendly rural mobility goes in-line with quality of life and is less costly than you might think.

mobility management
car sharing taxi bus cycling campaigns

How can we contribute to local climate action?

- Budget shift from long-distance travel to local mobility
- Funding of public transport alleviates family budgets in rural areas.

Next Steps?

- Sector goals for CO₂-reduction for the transport sector!
- Use the chance ~~for~~ of easy stakeholder involvement in rural society.
