

Workshop: **WS 11: ENERGY-EFFICIENT
BUILDING AND CONSTRUCTION**
Cluster: **INFRASTRUCTURE**

What have we learned?

A positive vision that refurbishment and construction of buildings is existing but there is a gap between possibilities and the actual implementation

How can we contribute to local climate action?

Utilize co-benefits of energy-efficient refurbishment for local economies
Focus on communication strategy

Next Steps?

Make refurbishment sexy!
Voluntary & Legal requirements have to go hand in hand.
Keep going to show this subject will have relevance in the future.
